PRESENTATION

30 years ago, in 1995, Nancy hosted the second European workshop on thermoelectricity, bringing together around 50 researchers and marking an early milestone in the city's contribution to the field. A decade later, 130 researchers gathered in Nancy for the 5th European Conference on Thermoelectrics, further cementing its reputation within the thermoelectric research community in France, initially led by Pr. Stanislas and Hubert Scherrer. Since that time, our community has expanded significantly, driving remarkable progress in thermoelectrics.

20 years later, we are happy to welcome you back in Nancy for the 21st European Conference on Thermoelectrics from Monday 8th to Friday 12th September 2025. The conference will be held under the auspices of the Institut Jean Lamour and the Université de Lorraine in cooperation with the Propuls company.

ECT2025 will be a forum for discussions of the latest scientific ideas and discoveries in our field, along with novel devices and practical applications developed over the last years. The conference will cover all scientific aspects from theory to new materials, devices and applications, through fundamental developments in the physics and chemistry of state-of-the-art and emerging thermoelectric materials.

We cordially invite you to the former capital of the Polish Lorraine dukes, a beautiful and vibrant city of the Region Grand Est in France where Art Nouveau got its start thanks to internationally renowned artists such as Emile Gallé (glasswork), Louis Majorelle or the famous Daum crystal makers. Nancy and its Stanislas place will welcome you not only with its historical center and old town founded in the 11th century, but also with its modern infrastructure. The congress center Prouvé is located near the station in the heart of Nancy, making most of the must-see places easily accessible on foot.

We hope you will enjoy the conference and our beautiful city of Nancy and look forward to seeing you!

Christophe Candolfi and Bertrand Lenoir,
Université de Lorraine, France – chairmen

THE CONFERENCE VENUE

THE BEAUTIFUL CITY OF NANCY

Nestled in the heart of the Grand Est region, Nancy is a city rich in history while being firmly focused on the future. Known for its exceptional architectural heritage, including the famous Place Stanislas, a UNESCO World Heritage site, Nancy is also a leading university city. With a strong tradition in science, it hosts prestigious institutions such as the University of Lorraine and several internationally renowned research laboratories.

This dynamic and creative city, renowned for its commitment to innovation and research, is the ideal setting for hosting scientific congresses. Nancy stands out with its dense network of academic, industrial, and technological actors, fostering synergies between researchers, experts, and entrepreneurs. Its scientific ecosystem is further strengthened by the French Tech label and centers of excellence in fields such as healthcare, materials science, and engineering.

The Palais des Congrès - Centre Prouvé, located in the city center and within walking distance of the TGV train station, exemplifies the excellence Nancy offers for large-scale events. This modern venue, certified High Environmental Quality (HQE), is perfectly suited to the needs of scientific events, offering cutting-edge infrastructure in a space that is both functional and prestigious.

Whether for its cultural assets, high quality of life, or scientific dynamism, Nancy stands out as an essential destination for hosting international congresses, at the crossroads of innovation and knowledge.

THE CONFERENCE VENUE

THE NANCY CONVENTION CENTER: CENTRE PROUVÉ

Ideally located in the heart of Nancy, the Centre Prouvé is an exceptional venue for hosting large-scale events. With its modern, functional architecture, this convention centre boasts 20,000 m² of modular space, allowing configurations to be adapted to the specific needs of each event, whether a convention, trade fair, conference or seminar.

Close to the TGV station and just a few minutes' walk from the famous Place Stanislas, the Centre Prouvé offers an accessible and pleasant setting conducive to professional exchanges. Its state-of-the-art facilities guarantee a high-quality event experience, while at the same time being part of an eco-responsible approach, with High Environmental Quality (HEQ) certification.

Organisers and participants also benefit from a comprehensive range of services, including catering facilities, exhibition halls and personalised support to ensure the success of every event. The Centre Prouvé is a unique venue, combining prestige and practicality, in the heart of a dynamic and historic city.
